

Using the Tracking Tool to Monitor Student Activity

RamCT Instructors have access to the Tracking Tool in their RamCT section. Instructors can set [permissions for Teaching Assistants](#) to have access to the Tracking Tool. The tracking tool allows you to monitor student activity in your RamCT section. You can view reports that provide information on your students as a group or a report that will allow you to see individual student activity.

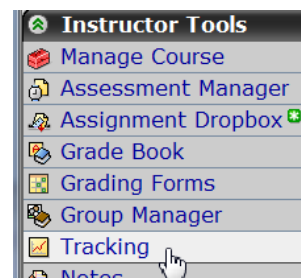

Note: Tracking is compiled and indexed nightly. So, today's activity will not show up in a tracking report until tomorrow.

7 Tracking Reports:

1. [Summary of Activity](#) – provides an overview of Student activity.
2. [Tool Usage](#) – overview of how often different RamCT tools are used.
3. [Course Item Usage](#) – overview of how often specific quizzes, assignments or discussion topics are used.
4. [Entry Page or Tool](#) – overview of the pages or tools used most frequently a course entry points
5. [Exit Page or Tool](#) – overview of the pages or tools used most frequently a course exit points.
6. [File Usage](#) – Provides an overview of files viewed most frequently.
7. [Student Tracking](#) – detailed summary of activity information for individual students.

7. Student Tracking

A very powerful tool for viewing the activity of individual student's each time that they logged in to this RamCT section. You can verify if they looked at a specific document, started and submitted an assessment, submitted an assignment, posted to a discussion topic, etc.

The initial screen shows a summary of which tools each student has accessed when they logged in to this RamCT section.
